Student Cancellation

If a student is unable to attend due to contracting an illness, including COVID 19 prior to the festival, the guest school may fill the vacant spot with another student. If the spot is not filled by the visiting school, GIS will not be able to adjust costing, and the school will be accountable for payment for that student.

Festival Cancellation

The festival will only be cancelled by what would qualify as a 'Force Majeure'. This would include (but is not limited to) borders closing, major storms, a political uprising, etc. In this instance, GIS would fully reimburse visiting schools for any cost that has not already been paid out and is non-refundable from the providing external agencies.

It is recommended that all visiting schools take out a travel insurance policy for this trip.
